Freedom to Explore

A liberal arts education is about discovery. In the sciences and humanities, Princeton gives you the time, resources and opportunity to test yourself and discover new intellectual interests.

Beginning in your first year, you will participate in small class seminars with professors known around the world for their scholarship. In your junior year, you will complete a substantial paper or project and begin to pursue original research in a topic of your choosing.

Your research will culminate in a senior thesis or a substantial research project. Along the way, you will have opportunities to work one-on-one with a faculty member who serves as your intellectual guide and mentor.

NUMBER OF STUDENTS IN THE CLASS OF 2023 FROM THE UNITED STATES

Princeton at a Glance

Small Residential Communities

First-year students and sophomores are required to live on campus and are randomly assigned to a residential college. The residential colleges — six in all — are like a home away from home. You will dine, study and relax with others where you live; have access to faculty assigned to your college who serve as your academic advisers; and participate in a range of extracurricular activities. In your junior year you may choose to stay in the college, or pursue a number of other dining and living arrangements on campus.

A Diverse Learning Experience

Princeton knows that a diverse student body significantly enhances the educational experience of all students. Approximately 45% of students are Americans of color; nearly 12% come from outside the United States, representing more than 100 countries around the world; and they come from a range of economic circumstances.

Princeton University

is a vibrant community that blends the strengths of a major research university with the qualities of an outstanding liberal arts college.

Undergraduates are our focus. At Princeton, every faculty member teaches, usually in small class settings. We prepare undergraduates to address the challenges of the future, enrolling exceptional students from around the globe and equipping them with the knowledge, skills and experience to become leaders in whatever they choose to do.

Explore our campus today by taking our virtual tour, available in four languages, at admission.princeton.edu/virtualtour.

Affordable for All

Princeton has one of the most generous financial aid policies in the country. About 60% of students receive financial aid. We provide financial aid in the form of grants, which do not have to be repaid. Our aid program does not require any borrowing, so students may graduate debt free. As a result, 82% of our recent seniors graduated debt free. The average debt of graduating students who choose to borrow is \$9,000.
